

# MATHEMATICS RESEARCH EXPERIENCES IN COMMUNITY COLLEGES CONFERENCE

## MRE-C<sup>3</sup>

California State University Northridge  
March 18, 2017

Organizers: Helena Noronha (CSUN), Edouard Tchertchian (Pierce College),  
Tigran Mkrtchyan (Mission College), and Dana Clahane (Fullerton College)

Plenary Speaker: Jorge Balbas (CSUN)

Do you know what mathematical research is? Would you like to be a college professor? How about a successful career in the private sector? If you are a community college student who likes mathematics or statistics and wonder what you can do with a degree in the mathematical sciences, join us for this one-day conference. It is designed to students who want to know more about mathematical research and about what mathematicians and statisticians do. Participants will see their peers presenting research projects and learn about careers in the Mathematical Sciences. If you already doing a project come and present yours.

To register go to <http://recc-math.org>

The workshop is supported by the NSF grant: RE-C<sup>2</sup>: Research Experiences in Community Colleges (DMS- 1541911).
